makes no sense

By polyrep

The author, Ken Addison, lays out a program for making husbands more attentive to their wives, helping more with the housework and children's care, and "being happier". The method "orgasm denial" is Victorian at best, stupid at worst. It doesn't work, never worked, and makes no sense from either the man's or the woman's point of view. Don't waste your money on this book.
