excellent reference book

By Ziqing Wang

used this book for my vascular oral boards. read it (almost) cover to cover. easy read, short chapters and very useful. probably not essential for the boards but definitely a good resource for a quick cross reference.

2 of 2 people found the following review helpful.

provides the best detail without too much

By Bernie

If you're going to pick one book for boards, it should be this one. After having them all, it covers the most topic areas, provides the best detail without too much, and it is up to date regarding endo approaches.

Good even in Kindle

By J. Luis FERREIRA

I give 4 stars, because of I got the kindle version and I miss the colors charts.
