FERTILITY TESTING: RESTRAINED AND EXAMINED (DOCTOR PATIENT MEDICAL EROTICA) BY LINDSEY PURL PDF

Note: while this story can be read alone, the circumstances may be much hotter in the context of the first story, *Restrained and Examined*.

Young Allison has been the test subject for an experimental libido-enhancing serum for months now. When the head doctor informs her that their tests are completed, she's worried about her only source of income suddenly vanishing. But the drug's wealthy investors have one last demand before it can be released to the market: they need to know its effects on conception and pregnancy—and they want to observe the process every step of the way.

Will fertile Allison's drug-induced horniness be enough to overcome the terror of being tied down and impregnated while dozens of doctors and investors watch, day after day after day?

Warning: this 12,600-word story contains a hot doctor who likes his patients restrained, reluctant bondage, an uncontrollable drug-induced arousal, a fertile young woman locked in an observation room night and day, the daily use of medical implements and other devices, a powerful investor who wants to get the most out of his horny investment, and a final group breeding scene that will leave you hot from head to toe. Adults only!

Note: all characters depicted in this story are 18 years or older.

Excerpt:

“How long will it take to...you know...” Fear was making her throat dry and she could hear her heart pounding in her ears.

The doctor tapped the needle of a syringe of pink fluid and gave it a test squirt. “It depends on too many factors to be sure.” He motioned for her to stand and turn around. She did as she was told and felt his strong hand on her back pressing her torso down into the table. The prick of the needle against her bare ass cheek made her whimper slightly. Always more serum. Never a day's rest from the constant horniness.

She heard him walk back to the counter as he continued talking. “I'd say anywhere from a week to a month. We'll just have to see.”

Allison spun around, eyes wide. “Wait, what?!? I thought this was going to be a quick procedure!” The idea of being trapped in a glass-walled room for possibly weeks was terrifying.

The doctor turned and looked calmly at her. “Then perhaps you should have read the contract more closely, Ms. Heartly.” He put the syringe away and took his gloves off, tossing them in the medical waste bin. “Besides, Allison, you do know how babies are made, right?” He walked back toward her, his eyes intense.

Fanttastic new (to me, at least) author.

By David Kay

I think that the author (one of my newest favorites) does a fine job in expressing the Point of view of his main character, which should always be the first concern of any author of fiction.
