This book is one of the best resources to teach high intermediate students

By Charlie

This book is one of the best resources to teach high intermediate students. As a teacher, I like the second Edition much more than the third Edition and there is no difference with the 4th Edition so I will keep using this edition until it is whether all sold ou or out of printt. A great resource even if you are teaching a speaking class for those who need to get a little bit better when using structures.

but this is the only one that arrived in such a poor condition.

By Eric

Although it was a prime product, there were a lot of writing throughout the book. I have ordered other books that promised similar quality, but this is the only one that arrived in such a poor condition.

Focus on Grammar 1 (3rd Edition)

By Ksenia

Everything was good except for there are a lot of scribbles on it and a page is torn out, i wouldn't call the condition "fair". Still serves the purpose though.
