Not HG101's Best Showing

By Dave W.

I have purchased all of HG101's books, read them and enjoyed them, even the massive Classic Graphic Adventures book. The level of detail is very nice every time.

That's kind of the problem with the 200 Best Games book. It isn't there. From my reading, I suspect it's because the HG101 team tried to cram in 400 games into the book (200 regular, 200 see alsos) and because of that, lost a lot of room to really dive in. The book suffers from that lack of detail.

My other issue with the book are the game choices. While I understand lists like this are completely subjective, there are a great many games that would not make the vast majority of Best Of lists. Barkley Shut Up and Jam: Gaiden? Crash Bandicoot 3? Blood? Best of ALL TIME? These are somehow better than Tetris, which is not mentioned even in the runner ups? Don't get me wrong - there is not a bad game on the list, but the case to why some of these have been included is shaky at best. Also, a lot of choices seem picked just to be contrarian to the norm - Majora's Mask over Ocarina of Time? Really? Super Mario Galaxy 2's reasoning over the first Galaxy was "It has Yoshi". I come to expect better analysis than that from HG101.

I'll continue to purchase HG101's books in the future, definitely, however any offerings like this one (more subjective than objective), I will probably steer clear of.

Good book, print version is so-so.

By Zach

It's nice to be able to open this book and browse through classic game favorites. It was not quite what I had expected -- check the dimensions before purchasing. It is smaller than I expected for the price, and printed on lower quality stock, though the printing itself is colorful.

Amazing book. Great pictures, agree with so many of the choices, and introduced me to a few new ones. This is my "must play" bible for games
