check title first

By Samantha V.

Just the book I was looking for, many people are surprise to find its only half of the nook because this class is taken in two different semesters, before buying check the title goes with the class

Three Stars

By megan

The book was great but did not include the financial chapters or the pearson cd for online assignments

Would recommend for anyone looking to learn Accounting!!

By Farrukh Mughal

The book itself arrived in perfect condition even though I bought it used and I love everything about it. The content is very easy to understand and the book does a good job of explaining new content. I learn way more from this book than I do from my professor and her notes because the book provides SEVERAL examples to ensure that the reader understands the concepts. There are review sections at the end of every chapter along with several practice problems. My only complaint is how long the seller took to send me this book. I received a good three weeks after I ordered it.
