Impressive supplement book on dating.

I have to say that this book by Mr. locario is good to say the least. He goes into the mentality one must have to attract the opposite sex, and that is to work on yourself! There are some aspect to this book that I don't agree with like setting up dates. Im the type of person to ask a women to have sex with her and skip dates, thats just me lol. One thing that this author does it have the reader take accountability for this and not just blame women for their flaws. We as men set the tone and environment for our dating relationships and world in general. I like who he challenges the reader on how we should force to take and be in company with women every single day. He doesn't just give fluff theory and expect the reader to be a ladies man the next day. He actually states that you will as a serial dater be rejected many times, its just how you handle it that is going to make or break your success with women. If you like reads of Alan Roger Currie, David X, Dean "the coach" Williams,Tariq Nasheed, ect then add this to your library.
