## PDF

Humans thought that they could stand amongst the older races. They believed, in their hubris, that the perils of interstellar travel could be mastered within a single generation. That they would be spared the wrath of the Toralii.

Now humanity lies in ashes. The cradle of our civilization, Earth, is nothing more than a charred husk, a dead world in an empty solar system in an unremarkable corner of the galaxy.

The war is over.

We lost.

Captain Melissa Liao and the remaining band of Humans, numbering barely in the tens of thousands, hold the future of their entire species in their hands. They must settle a new world, encounter friends and enemies new and old, and plant the seeds of hope in the ashes of humanity.

Book four of the Lacuna series.

- Lacuna
- Lacuna: The Sands of Karathi
- Lacuna: The Spectre of Oblivion
- Lacuna: The Ashes of Humanity (new release!)
- Lacuna: The Prelude to Eternity (coming 2014!)

Don't miss these short stories set in the Lacuna universe:

- Magnet
- Magnet: Special Mission
- Magnet: Marauder
- Imperfect
- Faith

- Sales Rank: #67617 in eBooks

A pleasure to read

By Duncan Haldane

First point - Dave is a personal friend, but I have received nothing for writing this review.

Second point - You shouldn't read this novel if you haven't read the other novels in the series (although the short stories are good but optional).

And Final point - I have said this directly to the author, but he needs to give more description for the aliens; I found it a little difficult to remember who is who sometimes.

And now to the review.

This is the best novel in the series so far. It was engrossing, poignant and at times horrifying. It should be the best and worst of humanity. The characters shined, even the new ones, and I found myself wanting more. This is a story of tragedy and triumph, of pain and resolve, of strength and love. And good old-fashioned Science Fiction.

Reminiscent of Battlestar Galactica, Star Gate Universe, Babylon 5 and Stephen R Donaldson's The Gap Cycle, this was a pleasure to read that ended too soon, leaving me begging for more.

This book is why I love to read.

sometimes a review doesn't do a book justice!

By Jack McCumber

Ashes of humanity was well written to the point that it was like reading a letter from a loved one. The torture of finding out that your family has been destroyed and everything you know has changed. I found myself lost in the words, and had to reread pages many times, over and over.

Mr Adams out did himself on this typed out piece of art, a must read in the series. It will leave you wanting more.

Jack

trouble in space city

By Amazon Customer

I felt like it was more than a bad day/time and in that situation I really expected that they would organize with a governing structure to start getting all the things done that would be required to survive and thrive. Tens of thousands of people cannot be left to fend for themselves, take a look at any of the refuges around the world. They camp side by side but no one takes over unless it is for a selfish reason.
