Good program!

By jan

This is an excellent book and should be a "must have" for every teacher. At the beginning of the year, before the big curriculum push begins, start using the activities in this book on a regular basis. This is "character" education of the best sort. There are lessons on all the things that all teachers wish parents still taught at home. This book would be useful in all grades since the skills taught are universally applicable. Don't give up on your students - "Skillstream" them.

Simple but useful lessons

I used this when teaching my autistic students. It has a great lesson plan and it makes teaching easy for teachers to use.
