The intriguing part of success is that it means such different things to different people. However, just as success encompasses achievement, SuccessOnomics™ implies the achieving of goals through fiscal competence. The concept of Success combined with Economics is a formidable financial combination. The Celebrity Experts® in this book are successful in different areas, but they all exhibit the components of success: perseverance, passion, planning, risktaking with a willingness to fail, decision-making and, maybe the most important component of all, they take action. The authors in this book share their success methodology and mindset. This allows the reader to understand not merely how they think, but, more importantly, how these Celebrity Experts® can guide and coach them to a mastery of SuccessOnomics™ in their own lives. Many of life's failures are people who did not realize how close they were to success when they gave up. ~ Thomas A. Edison

I recommend that you look into the publishing company that releases this book and books like it. The company is called Celebrity Press Publishing and for a large fee, you can have your name listed as one of the

authors along with highly successful business men like Forbes. For an even larger fee, they will put your picture on the book cover making it appear like you are one of the main contributors to the book. If you look inside the book however, you will see that this person is only the author of one of many chapters and really a very small contributor to the book. In fact, there is a chance that they were involved in very little of the writing process at all. Simply participating in an interview with one of Celebrity Press' "award winning authors" can allow them to write your entire chapter for you.

The company also guarantee's that "your" book will automatically become a best-seller. I don't understand how that can possibly be guaranteed. Even the most successful authors don't know if their yet to be released book will become a best seller. There are clearly some extremely shady things about Celebrity Press. The company's goal does not seem to be to help educate business-men and women, but instead is used as a marketing tool to try and make people appear as celebrities and experts on something they may not actually be experts on. You are far better off reading a book that is made by a more honest publisher.

Buyer Beware!

By RH

A friend of mine was involved in part of this turmoil. Pretty scary when you can use a pristine name like Steve Forbes and tie it to unscrupulous people, making them look like celebrities. If you Google the authors or Successonomics and press images, you'll see many different authors on the cover of this book all claiming to be coauthors with Steve Forbes. I'm sure some of them are honest, hard working people, others however are con artists. The problem is that nobody is vetting the authors! You can pay a fee and become a Celebrity Author! ABC / CBS / NBC & FOX TV Logos, appearing on Brain Tracy's TV Show, speaking as a visiting scholar at universities or being nominated as America's Premier Expert (all part of the purchase price!) is a misleading lie!! Each author pays a substantial fee to be associated with this book!! Tread lightly here or you too may be swindled!!!!

Lost all respect.....

By Frank Hubbard

sham.....these authors pay ALOT of money for this and Celebrity Press does not even research them. I am sure most are honest but I know for a fact some are total fakes. Very dangerous when talking about finances. I have lost all respect for Forbes since he did not do due diligence on the applicants. I guess the money was more important to him. Bad job Forbes....
