A must-have!

By JJB

A great book to have if you want to learn to cook classic Chinese Cantonese cuisine. This is an older book, and therefore recipes tend to be higher in calories and even sodium than current recipes, but as you work with these original recipes, you will learn to substitute healthier options if you wish. It is still the gold standard for getting started if you love Chinese food as we know it in the U.S.

4 of 4 people found the following review helpful.

Yum

By Rosieladybug

Lots of great photos throughout this oldie but goodie. if you enjoy chinese cooking it is a must have.

Emily can cook

By See I told you

Emily stayed in China for a while as a free lancing reporter for New Yorker, she was living and socializing with upscale society. The recipe she collected in this book were from high end restaurants for petty bourgeoisie, dishes appeared good looking but they were not easy to produce and especially not for the general public.

I love the printing quality of the book especially from some 50 years ago. Then was a hard time.
