History you won't find anywhere else

By Michael Desario

One of the best books on the subject. Reveals how Catholics got their filthy hands on the gospel and perverted it, killing off their adversaries and telling lies to cover it up.

Somewhat outdated, but still an excellent introduction

By David Withun

Some of the scholarship here is a bit outdated (for instance, the contention that Eusebius of Caesara and St. Epiphanius of Salamis were proto-iconoclasts has been thoroughly dismantled in recent years) but this is still the standard and the classic text on early Christian history, covering roughly the period of the Apostolic Fathers (late first century) to the Seventh Ecumenical Council (eight century) and introducing all of the major themes of Church history along the way, including theology, liturgy, art, major figures, etc. The focus throughout is primarily on Western Christianity but the author is also familiar with Eastern practice and generally takes a balanced approach. If anyone is interested in learning more about Church history but has very little knowledge of it already, this book is an excellent place to start.
