## Review

"By reinstating the repressed mother and "femme castratrice in classic Freudian theory, and by extending Julia Kristeva's discussion of horror and abjection to fresh critical objects, Barbara Creed accessibly and convincingly demonstrates the relevance and productivity of psychoanalytic theory for cultural analysis."

-Annette Kuhn, University of Glasgow

"A substantial contribution to knowledge of the horror film . . . the first study to concentrate specifically on the monstrous-feminine."

-E. Ann Kaplan

"Witty, succinct, a pleasure to read. The critique of Freudian theory comprises a total re-conceptualization of the status of the feminine within psychoanalytic debate."

-Sneja Gunew

In almost all critical writings on the horror film, woman is conceptualised only as victim. In *The Monstrous-Feminine* Barbara Creed challenges this patriarchal view by arguing that the prototype of all definitions of the monstrous is the female reproductive body.

With close reference to a number of classic horror films including the *Alien* trilogy, *The Exorcist* and *Psycho*, Creed analyses the seven 'faces' of the monstrous-feminine: archaic mother, monstrous womb, vampire, witch, possessed body, monstrous mother and castrator. Her argument that man fears woman as castrator, rather than as castrated, questions not only Freudian theories of sexual difference but existing theories of spectatorship and fetishism, providing a provocative re-reading of classical and contemporary film and theoretical texts.

An intriguing look at horror film

By A Customer

Those who dislike psychoanalytic interpretations beware! This book is full of them (even one about Little Red Riding Hood!) I don't necessarily agree with them, but I do find them exceptionally fascinating. The readings of Psycho and Carrie are particularly enlightening, as well as that of Jaws (very heavy on the Freudian castration anxiety angle... but now when I watch the film I can't abide by any other interpretation).

Essential Reading

By Amanda

Anyone interested in horror films and/or feminist theory MUST read this book. It is surprisingly accessible and enjoyable to read. Lower level undergrads without a cursory knowledge of feminist critiques of psychoanalysis might benefit from buying Elizabeth Wright's *Feminism and Psychoanalysis: A Critical Dictionary*.

Very interesting perspectives on popular culture

By Margaret A Smith

The arguments are underpinned with sound feminist theory and semiotics..very interesting to see a different perspective on well known films; it encourages more in depth critical readings of popular texts, and certainly stimulates discussion. I found the discussions of both Alien and Psycho especially, of interest.
