So by doing this, be a great visitor now!

THE SEER BY JORDAN REECE PDF

Detective Laeric Scoth is good at his job, but he's also an ass. And Jesco Currane has just gotten stuck with him on the most frustrating case of their careers.

When the body of a courier is discovered in an alley, Jesco is called in to assist with his seer skills. All he has to do is touch the clothing of the deceased to identify the killer. But the victim has been stripped naked, and the only evidence at the scene is a timepiece. The people he sees within it have nothing to do with the murder, yet they must be related to the case.

Chasing down leads with Scoth lets Jesco see another side of the surly, if handsome, detective. But as their feelings for each other grow heated, so does the investigation. Someone doesn't want them to know who killed the courier . . . and plans to add them to the death toll if they don't stop pursuing it.

Frustration abounds here

By bill m

I generally only write positive reviews when I think that other people might benefit from the information and enjoy a book, but I'll make an exception here because of my frustration. This book is just confusing and difficult to read; I don't get the prior two reviews but, of course, tastes are personal. It's beyond me how anyone can follow what's going on in this story without keeping some mobile app running that lists characters, places, names and references and also lists a schematic tying them together. There's a plot but it's so hidden and confused that it's almost as if the author intends to make this as difficult to read as possible. Listen, I've read Joyce and Proust so I know all about difficult reading, but it's different if one is tackling a classic. Unless you have a photographic memory or just want to spend hours skipping back and forth to try to unscramble names and places, save your money and don't get involved here.

Pleasantly suprized!

By Amazon Customer

There were no reviews when I picked up this book so I was doubtful about the quality, boy was I happy to be wrong. I love this new gear driven world and hope there are more stories to be found about it. I will be looking for more from the author for sure! I really liked that the duo was not instantly in love or lust with each other as many of these books seem to have. They got to know one another and built a relationship like real people even though it was a fictional world. Very nice!

Steampunk mystery

By Silvergriffin

I never give 5 stars, but I really enjoyed this story. One of the other reviewers gave this story 1 star for having too many characters and that was a completely unfair review. I've read stories where there were so many characters, that I would use the highlighter excessively to keep track. This wasn't one of those stories.

I really enjoyed the alternative reality setting. The mixture of mechanisms and psychic powers was very interesting. The lead characters slow building of their relationship and the fleshed out secondary characters were well done.

And the primary premise of this story - murder most foul. And foul it was. The painstaking process to discover the who, why, how, etc. Made for an excellent whodunit. I never guessed (I love guessing right, but I really like being proved wrong). And I wouldn't even say there were red herrings to lead you astray. Just methodical police investigation.

Would I read this again? Yes. Would I like to see another book based in this world? Yes.
